

## Motion

Re: Safety Improvements to Eriean Beach

**“Whereas there has been known problems with water vessels, specifically boats and sea-dos in Lake Erie that are entering areas near Eriean Beach where swimmers are present;**

**And whereas there have been many close calls with collisions between the water vessels and swimmers;**

**And whereas there is a high community concern for safety of swimmers in this area.**

**Be it resolved that administration look into options to make the beach safer for everyone utilizing the beach and water area such as the installation of buoys and other safety devices and provide an information report back to council.”**

Signed: Councillor Trevor Thompson
