From: Steven Brown, CPA, CMA

Director, Budget & Performance Services

Date: January 4, 2022

**Subject:** October 2021 Budget Variance Forecast

# **Recommendation**

It is recommended that:

1. Administration continue to monitor operations and report back to Council with the Final 2021 variance report after the completion of the year-end audit.

### **Background**

The purpose of budget variance reports is to project the year-end financial position of Chatham-Kent on a department by department basis. Each department reviews and forecasts its budget variance on a line by line basis.

#### Comments

Administration monitors the operating budget on an ongoing basis and, as with any forecast, the variance projections will become more accurate as the year unfolds. Significant use of estimates, historical knowledge and judgment is used in projecting budget versus actual variances to year-end. Many assumptions were made in the development of the October 2021 variance due to the ongoing COVID-19 pandemic and Wheatley emergency causing uncertainty for the remainder of the 2021 budget year. Material fluctuations in the projections can occur if unforeseen activity is experienced in the local economy, e.g. social assistance caseloads, fuel and energy prices, seasonal issues for grass cutting and winter control, etc.

The following two sections provide explanations of the variance:

- A) Departmental
- B) Divisional variances > 2% overrun or an overrun in excess of \$1.0M

# A) Departmental:

Departments have prepared forecasts as at October 31<sup>st</sup> to the end of the year. The October budget variance provides the latest forecast for Council's information heading into the 2022 budget deliberations.

The October 2021 budget variance is forecasting a net shortfall of \$3.5M representing 1.00% of the gross operating budget and is detailed in Appendix A. The issues have been identified in the following table:

# **COVID-19 Municipal Impacts**

As a result of the COVID-19 pandemic, the Municipality has been impacted in many areas, including a loss of revenue and increased costs, but also with cost reductions and increased funding.

As highlighted in Appendix B, the overall net expense currently projected to December 31, 2021 due to the COVID-19 emergency is \$3.4M. A significant portion of the COVID-19 expenses are related to a loss in revenue from the Provincial Offences Court, Casino, and arena rentals. A large portion of the Public Health COVID-19 expenses are related to the mass vaccination clinic. It is believed that this expense will be reimbursed by the Province, but as of the date of this report the legal funding agreements were not yet available.

# Wheatley Emergency

The Municipality has seen a significant increase in costs as a result of the ongoing Wheatley emergency as highlighted in Appendix C.

Of the total projected \$3.5M increase in net costs, the most significant increases relate to staffing expenses, in particular within Fire and Emergency Services which by December 31 will account for nearly \$2M in overtime and gas monitoring expenses.

The Province has publically announced funding to Chatham-Kent to offset part of the costs of the emergency, but as of the date of this report the legal funding agreements have not yet been signed.

Administration will continue to monitor the financial situation and COVID-19 assumptions used in the development of the October variance.
