Re: Installation of Speed Humps in the Dover Beach Park Municipal Lot

“That Whereas Council’s priorities and strategic direction for this term includes Community Wellness, everyone is safe and able to thrive.

Whereas Council’s priorities and strategic direction for this term includes Growth, expand infrastructure related to recreational facilities.

And whereas these priorities include a dedicated focus on ensuring safe transportation through active transportation options.

And whereas expanding trails and active transportation will promote physical activity and a healthy lifestyle, while ensuring everyone has access to social and built infrastructure that enables them to participate fully in their community.

And whereas CK plan 2035 states that Chatham-Kent Expand infrastructure related to recreational facilities

Therefore, be it resolved that Council direct Administration to install asphalt speed hump(s) as required within the Dover Beach Park Municipal Lot located at the Southwest end of Main Street in the Community of Mitchell’s Bay in an effort to reduce the speed of vehicles entering and exiting the parking lot. Costs associated with the installation of said speed humps are not to exceed \$2,500.00 and are to be funded through the Park Lot Lifecycle reserve.

Signed: Councillor Jamie McGrail
