		scout, and general manager of the Calgary Cannons, AAA affiliated of the Pittsburgh Pirates in the Pacific Coast League

Team Name

The team doesn't have a name yet as they will throw a community contest at the press conference on the day the team will be publicly launched in Chatham-Kent.

Message from the Team and Business Model

Our business model is designed to be family entertainment. What distinguishes us from others, on top of offering quality baseball to the community, is that we offer family entertainment through each hot summer night at Fergie Jenkins ballpark. Before each game, live music is presented to animate the fans at the main gate while the BBQs are smelling from far away. Multiple ON & OFF the field contests and skits are presented during the games to assure a super ambiance for all ages. After each game, there is another live band playing at the main gate to finish the party and to make sure each fan is going back home with great memories.

Team Mission

- Promoting health and sports especially to the youth
- Provide great atmosphere and entertainment
- Best fan experience

We are not only designed to develop players and play games, but also a business that creates family affordable activities in the summertime. We want to be involved in the community year-round by attending and organizing multiple events for kids and the whole family such as:

- Guest appearances in schools and businesses of the region
- We want to create a Reading club for the young children
- Multiple baseball clinics for youth in the region in collaboration with minor associations
- Camp out nights in collaboration with boys' and girls' scouts at our home ballpark
- Family movie nights at our home stadium, as well as other value-added fun/educational activities
- Baseball-derivative tournaments at our home ballpark and in local schools

We will team up with the Chatham-Kent Rotary Club and give back some proceeds of different team's activities as we want to give back to the community in helping the youth and especially the ones that can't participate in various sports activities. Discussions have been initiated with Mr. Brett Smith.

The upcoming 18 months will be to merge into the Chatham-Kent community, and to get the franchise ready for the first pitch in May 2024. In the upcoming new year, the team will start to appear in various schools, malls, and other locations as well as knocking on doors for corporate sponsorships, season tickets and others team initiatives.
